IMPORTANT INFORMATION

If this is a margin account and we maintain a special miscellaneous account for you, this is a combined statement of your general account and special miscellaneous account maintained for you under Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the special miscellaneous account as required by Regulation T is available for your inspection at your request.

The per annum rate of interest charged on the debit balance in your account is shown on this statement. This rate may change from time to time in accordance with fluctuations in interest rates. Interest is computed from the 16th day of the preceding month to the 15th day of the current month except in December and January. In December, the charges include the last day of the year and, in January, the interest is calculated from the first day of the month. The interest is based on the average daily net debit balance in your account with us, and for the actual number of days based on an interest year of 360 days. When calculating margin interest, free credit balances in all accounts will be offset against any debit in the margin account and the interest will be charged on the net debit balance.

We are required to report to the Internal Revenue Service all cash dividends and registered bond interest credited to your account on securities held for you in our name. We also report coupon bond interest. All dividends and interest credits should be included in your income tax return.

Information relative to commission and any other charges incurred in connection with listed option transactions occurring during the month has previously been furnished to you in confirmation of such transactions. A summary of this information will be made available to you promptly upon request. Exercise assignment notices for option contracts are allocated among customer short positions pursuant to a manual procedure with randomly selects form among all customer short option positions including those contracts which are subject to exercise. All short American style option positions are liable for assignment at any time whereas European style options are assigned at expiration. A more detailed description of our random allocation procedure is available upon request.

You are to promptly advise your brokerage firm or bank of any material changes concerning your investment objectives or financial situation.

Our financial statement is available for your personal inspection at our office, or a copy of it will be mailed upon your written request.

SIPC Protection. As a member of the Securities Investor Protection Corporation (SIPC), funds are available to meet customer claims up to a ceiling of \$500,000, including a maximum of \$250,000 for cash claims. For additional information regarding SIPC coverage, including a brochure, please contact SIPC at (202) 371-8300 or visit www.sipc.org. Apex has purchased an additional insurance policy through a group of London Underwriters to supplement SIPC protection. This additional insurance policy becomes available to customers in the event that SIPC limits are exhausted and provides protection for securities and cash up to certain limits. Similar to SIPC protection, this additional insurance does not protect against a loss in the market value of securities.

Any free credit balance represents funds payable upon demand which, although properly accounted for on our books of records, is not segregated, and may be used in the conduct of this firm's business as permissible under the SEC Rule 15c3-2.

MARKET VALUE:

This amount represents the value of the security position in your portfolio based on appraisals obtained from the various quotation services. These appraisals are based on the closing prices, bond yields and/or the mean bid and ask on the last day of the statement period. Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

Some securities in your portfolio may be listed as "Unpriced" on your statement. We use an automated pricing service from an outside vendor and certain prices may not be available to them. You can obtain a current quotation, upon request, from your broker or bank.

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Displays mutual funds by average cost and other securities by individual tax lot. Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

PLEASE RETAIN THIS STATEMENT AS IT WILL BE HELPFUL IN PREPARING YOUR INCOME TAX RETURNS AND MAY BE NEEDED ALONG WITH SUBSEQUENT STATEMENTS TO VERIFY INTEREST CHARGES IN YOUR ACCOUNT. THIS STATEMENT SHALL BE DEEMED CONCLUSIVE UNLESS OBJECTED TO IN WRITING WITHIN 10 BUSINESS DAYS OF THE STATEMENT CLOSING DATE.

IMPORTANT INFORMATION

You may have received a confirmation for a trade, which does not appear on this statement. If the settlement date of the trade as shown on the confirmation is later than the period ending date that appears at the top of this statement the trade will appear on your next regular monthly statement.

If this is a margin account and we maintain a special miscellaneous account for you, this is a combined statement of your general account and special miscellaneous account maintained for you under Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the special miscellaneous account as required by Regulation T is available for your inspection at your request.

The per annum rate of interest charged on the debit balance in your account is shown on this statement. This rate may change from time to time in accordance with fluctuations in interest rates. Interest is computed from the 16th day of the preceding month to the 15th day of the current month except in December and January. In December, the charges include the last day of the year and, in January, the interest is calculated from the first day of the month. The interest is based on the average daily net debit balance in your account with us, and for the actual number of days based on an interest year of 360 days. When calculating margin interest, free credit balances in all accounts will be offset against any debit in the margin account and the interest will be charged on the net debit balance.

We are required to report to the Internal Revenue Service all cash dividends and registered bond interest credited to your account on securities held for you in our name. We also report coupon bond interest. All dividends and interest credits should be included in your income tax return.

Information relative to commission and any other charges incurred in connection with listed option transactions occurring during the month has previously been furnished to you in confirmation of such transactions. A summary of this information will be made available to you promptly upon request. Exercise assignment notices for option contracts are allocated among customer short positions pursuant to a manual procedure with randomly selects from among all customer short option positions including those contracts which are subject to exercise. All short American style option positions are liable for assignment at any time whereas European style options are assigned at expiration. A more detailed description of our random allocation procedure is available upon request.

You are to promptly advise your brokerage firm or bank of any material changes concerning your investment objectives or financial situation.

Our financial statement is available for your personal inspection at our office, or a copy of it will be mailed upon your written request.

Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Displays mutual funds by average cost and other securities by individual tax lot. Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

<https://www.finra.org/industry/notices/06-72>

"IMPORTANT - Part of your distribution includes a return of capital. Any distribution that represents a return of capital reduces the estimated per share value shown on your account statement."

The preceding notice is required when reporting distributions on Direct Participation Programs and/or REITs and is subject to the DPP or REIT sponsor's final capital return determination as detailed in the IRS Form 1099 or K-1, as applicable.

Alternative or Other Investments, DPP, and Unlisted securities are not listed on a national securities exchange, are generally illiquid and that, even if a customer is able to sell the securities, the price received may be less than the per share estimated value provided in the account. The evaluation method used for any particular DPP or REIT will be provided to clients upon request.

Certain positions are not held on Apex's books or custodied by Apex and are not Protected by SIPC.

Pursuant to SEC Rule 606, Apex Clearing Corporation is required to make publicly available a quarterly report with regard to its routing of non-directed orders. In accordance with the Emergency Economic Stabilization Act of 2008 broker dealers are required to track and report cost basis to the IRS in three phases over the next three years.

- Equity securities acquired on or after January 1, 2011
- Mutual fund and dividend reinvestment plan (DRIP) shares acquired on or after January 1, 2012:
- Debit securities, options, and all other financial instruments acquired on or after January 1, 2014. (The IRS has extended this date from the previously announced date of January 1, 2013.)

Beginning this upcoming tax reporting season the cost basis of any covered equity security transaction (purchased after 12/31/10) that is required to be reported on a 1099-B will include its associated cost basis. In December, the charges include the last day of the year and, in January, the interest is calculated from the first day of the month. The interest is based on the average daily net debit balance in your account with us, and for the actual number of days based on an interest year of 360 days. When calculating margin interest, free credit balances in all accounts will be offset against any debit in the margin account and the interest will be charged on the net debit balance.

We are required to report to the Internal Revenue Service all cash dividends and registered bond interest credited to your account on securities held for you in our name. We also report coupon bond interest. All dividends and interest credits should be included in your income tax return.

Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Displays mutual funds by average cost and other securities by individual tax lot. Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

PLEASE RETAIN THIS STATEMENT AS IT WILL BE HELPFUL IN PREPARING YOUR INCOME TAX RETURNS AND MAY BE NEEDED ALONG WITH SUBSEQUENT STATEMENTS TO VERIFY INTEREST CHARGES IN YOUR ACCOUNT. Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

Some securities in your portfolio may be listed as "Unpriced" on your statement. We use an automated pricing service from an outside vendor and certain prices may not be available to them. You can obtain a current quotation, upon request, from your broker or bank.

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

MARKET VALUE:

This amount represents the value of the security position in your portfolio based on appraisals obtained from the various quotation services. These appraisals are based on the closing prices, bond yields and/or the mean bid and ask on the last day of the statement period. Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

Some securities in your portfolio may be listed as "Unpriced" on your statement. We use an automated pricing service from an outside vendor and certain prices may not be available to them. You can obtain a current quotation, upon request, from your broker or bank.

Bond prices might differ from current market quotes. Similarly, bond ratings may differ from current actual ratings. Computerized pricing and rating services are often unable to supply us with up to the minute information. Your broker or bank will be pleased to obtain a current quotation upon request.

ESTIMATED ANNUAL INCOME

The current annual dividend or bond interest rate for each security held, if available from quotation services. The rate is multiplied by the number of shares or par value of bonds to determine estimated annual income.

OPEN ORDERS:

Displays all GTC (Good-Till-Cancelled) orders in your account. Also included in the section are GTX orders (GTC orders eligible for extended trading hours).

MONEY MARKET ACTIVITY:

Purchases, reinvestments and liquidations of money market funds, plus redemptions of money market fund checks.

DEFINITION OF ACCOUNT TYPES C=Cash, M=Margin, I=Income, L=Legal, S=Short, X=RVP/DVP, and O=Other

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Displays mutual funds by average cost and other securities by individual tax lot. Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

PLEASE RETAIN THIS STATEMENT AS IT WILL BE HELPFUL IN PREPARING YOUR INCOME TAX RETURNS AND MAY BE NEEDED ALONG WITH SUBSEQUENT STATEMENTS TO VERIFY INTEREST CHARGES IN YOUR ACCOUNT. THIS STATEMENT SHALL BE DEEMED CONCLUSIVE UNLESS OBJECTED TO IN WRITING WITHIN 10 BUSINESS DAYS OF THE STATEMENT CLOSING DATE.

MUTUAL FUNDS AND OTHER SECURITIES ARE NOT INSURED BY THE FDIC, ARE NOT DEPOSITS OR OBLIGATIONS OF, OR GUARANTEED BY APEX, AND INVOLVE INVESTMENT RISKS, INCLUDING THE POSSIBLE LOSS OF THE PRINCIPAL AMOUNT INVESTED.

Alternative or Other Investments, DPP, and Unlisted securities are not listed on a national securities exchange, are generally illiquid and that, even if a customer is able to sell the securities, the price received may be less than the per share estimated value provided in the account. The evaluation method used for any particular DPP or REIT will be provided to clients upon request.

In accordance with the Emergency Economic Stabilization Act of 2008 broker dealers are required to track and report cost basis to the IRS in three phases over the next three years.

- Equity securities acquired on or after January 1, 2011
- Mutual fund and dividend reinvestment plan (DRIP) shares acquired on or after January 1, 2012:

IMPORTANT INFORMATION

To our valued customers:

NASD Rule 2340 requires that we advise you to promptly report any inaccuracy or discrepancy in your account (within 10 days after available) to your brokerage firm and clearing firm (where these are different firms) and to re-confirm any oral communications in writing.

<https://www.finra.org/industry/notices/06-72>

"IMPORTANT - Part of your distribution includes a return of capital. Any distribution that represents a return of capital reduces the estimated per share value shown on your account statement."

The preceding notice is required when reporting distributions on Direct Participation Programs and/or REITs and is subject to the DPP or REIT sponsor's final capital return determination as detailed in the IRS Form 1099 or K-1, as applicable.

Alternative or Other Investments, DPP, and Unlisted securities are not listed on a national securities exchange, are generally illiquid and that, even if a customer is able to sell the securities, the price received may be less than the per share estimated value provided in the account. The evaluation method used for any particular DPP or REIT will be provided to clients upon request.

Certain positions are not held on Apex's books or custodied by Apex and are not Protected by SIPC.

Pursuant to SEC Rule 606, Apex Clearing Corporation is required to make publicly available a quarterly report with regard to its routing of non-directed orders. This information can be accessed on the internet at: <http://public.s3.com/rule606/apex/>, or a written copy will be furnished at no cost upon request via telephone to (214) 765-1009.

SEC Rule 606 (b) requires a broker-dealer to disclose to its customers, upon request, "the identity of the venue to which the customer's orders were routed for execution in the six months prior to the request, whether the orders were directed orders or non-directed orders, and the time of the transactions, if any, that resulted from such orders."

In accordance with the Emergency Economic Stabilization Act of 2008 broker dealers are required to track and report cost basis to the IRS in three phases over the next three years.

- Equity securities acquired on or after January 1, 2011
- Mutual fund and dividend reinvestment plan (DRIP) shares acquired on or after January 1, 2012:
- Debit securities, options, and all other financial instruments acquired on or after January 1, 2014. (The IRS has extended this date from the previously announced date of January 1, 2013.)

Beginning this upcoming tax reporting season the cost basis of any covered equity security transaction (purchased after 12/31/10) that is required to be reported on a 1099-B will include its associated cost basis. If you have any questions about this important change to the IRS mandated reporting requirements, please contact your broker.

This amount represents the value of the security position in your portfolio based on appraisals obtained from the various quotation services. These appraisals are based on the closing prices, bond yields and/or the mean bid and ask on the last day of the statement period. Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

Some securities in your portfolio may be listed as "Unpriced" on your statement. We use an automated pricing service from an outside vendor and certain prices may not be available to them. You can obtain a current quotation, upon request, from your broker or bank.

Bond prices might differ from current market quotes. Similarly, bond ratings may differ from current actual ratings. Computerized pricing and rating services are often unable to supply us with up to the minute information. Your broker or bank will be pleased to obtain a current quotation upon request.

ESTIMATED ANNUAL INCOME

The current annual dividend or bond interest rate for each security held, if available from quotation services. The rate is multiplied by the number of shares or par value of bonds to determine estimated annual income.

DEFINITION OF ACCOUNT TYPES C=Cash, M=Margin, I=Income, L=Legal, S=Short, X=RVP/DVP, and O=Other

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Displays mutual funds by average cost and other securities by individual tax lot. Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

PLEASE RETAIN THIS STATEMENT AS IT WILL BE HELPFUL IN PREPARING YOUR INCOME TAX RETURNS AND MAY BE NEEDED ALONG WITH SUBSEQUENT STATEMENTS TO VERIFY INTEREST CHARGES IN YOUR ACCOUNT. THIS STATEMENT SHALL BE DEEMED CONCLUSIVE UNLESS OBJECTED TO IN WRITING WITHIN 10 BUSINESS DAYS OF THE STATEMENT CLOSING DATE.

MUTUAL FUNDS AND OTHER SECURITIES ARE NOT INSURED BY THE FDIC, ARE NOT DEPOSITS OR OBLIGATIONS OF, OR GUARANTEED BY APEX, AND INVOLVE INVESTMENT RISKS, INCLUDING THE POSSIBLE LOSS OF THE PRINCIPAL AMOUNT INVESTED.

IMPORTANT INFORMATION

To our valued customers:

NASD Rule 2340 requires that we advise you to promptly report any inaccuracy or discrepancy in your account (within 10 days after available) to your brokerage firm and clearing firm (where these are different firms) and to re-confirm any oral communications in writing.

<https://www.finra.org/industry/notices/06-72>

"IMPORTANT - Part of your distribution includes a return of capital. Any distribution that represents a return of capital reduces the estimated per share value shown on your account statement."

The preceding notice is required when reporting distributions on Direct Participation Programs and/or REITs and is subject to the DPP or REIT sponsor's final capital return determination as detailed in the IRS Form 1099 or K-1, as applicable.

Alternative or Other Investments, DPP, and Unlisted securities are not listed on a national securities exchange, are generally illiquid and that, even if a customer is able to sell the securities, the price received may be less than the per share estimated value provided in the account. The evaluation method used for any particular DPP or REIT will be provided to clients upon request.

Certain positions are not held on Apex's books or custodied by Apex and are not Protected by SIPC.

Pursuant to SEC Rule 606, Apex Clearing Corporation is required to make publicly available a quarterly report with regard to its routing of non-directed orders. This information can be accessed on the internet at: <http://public.s3.com/rule606/apex/>, or a written copy will be furnished at no cost upon request via telephone to (214) 765-1009.

SEC Rule 606 (b) requires a broker-dealer to disclose to its customers, upon request, "the identity of the venue to which the customer's orders were routed for execution in the six months prior to the request, whether the orders were directed orders or non-directed orders, and the time of the transactions, if any, that resulted from such orders."

In accordance with the Emergency Economic Stabilization Act of 2008 broker dealers are required to track and report cost basis to the IRS in three phases over the next three years.

- Equity securities acquired on or after January 1, 2011
- Mutual fund and dividend reinvestment plan (DRIP) shares acquired on or after January 1, 2012:
- Debit securities, options, and all other financial instruments acquired on or after January 1, 2014. (The IRS has extended this date from the previously announced date of January 1, 2013.)

Beginning this upcoming tax reporting season the cost basis of any covered equity security transaction (purchased after 12/31/10) that is required to be reported on a 1099-B will include its associated cost basis. If you have any questions about this important change to the IRS mandated reporting requirements, please contact your broker.

IMPORTANT INFORMATION

You may have received a confirmation for a trade, which does not appear on this statement. If the settlement date of the trade as shown on the confirmation is later than the period ending date that appears at the top of this statement the trade will appear on your next regular monthly statement.

If this is a margin account and we maintain a special miscellaneous account for you, this is a combined statement of your general account and special miscellaneous account maintained for you under Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the special miscellaneous account as required by Regulation T is available for your inspection at your request.

The per annum rate of interest charged on the debit balance in your account is shown on this statement. This rate may change from time to time in accordance with fluctuations in interest rates. Interest is computed from the 16th day of the preceding month to the 15th day of the current month except in December and January. In December, the charges include the last day of the year and, in January, the interest is calculated from the first day of the month. The interest is based on the average daily net debit balance in your account with us, and for the actual number of days based on an interest year of 360 days. When calculating margin interest, free credit balances in all accounts will be offset against any debit in the margin account and the interest will be charged on the net debit balance.

We are required to report to the Internal Revenue Service all cash dividends and registered bond interest credited to your account on securities held for you in our name. We also report coupon bond interest. All dividends and interest credits should be included in your income tax return.

Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Displays mutual funds by average cost and other securities by individual tax lot. Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

Alternative or Other Investments, DPP, and Unlisted securities are not listed on a national securities exchange, are generally illiquid and that, even if a customer is able to sell the securities, the price received may be less than the per share estimated value provided in the account. The evaluation method used for any particular DPP or REIT will be provided to clients upon request.

In accordance with the Emergency Economic Stabilization Act of 2008 broker dealers are required to track and report cost basis to the IRS in three phases over the next three years.

- Equity securities acquired on or after January 1, 2011
- Mutual fund and dividend reinvestment plan (DRIP) shares acquired on or after January 1, 2012:

Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Displays mutual funds by average cost and other securities by individual tax lot. Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

PLEASE RETAIN THIS STATEMENT AS IT WILL BE HELPFUL IN PREPARING YOUR INCOME TAX RETURNS AND MAY BE NEEDED ALONG WITH SUBSEQUENT STATEMENTS TO VERIFY INTEREST CHARGES IN YOUR ACCOUNT. THIS STATEMENT SHALL BE DEEMED CONCLUSIVE UNLESS OBJECTED TO IN WRITING WITHIN 10 BUSINESS DAYS OF THE STATEMENT CLOSING DATE.

MUTUAL FUNDS AND OTHER SECURITIES ARE NOT INSURED BY THE FDIC, ARE NOT DEPOSITS OR OBLIGATIONS OF, OR GUARANTEED BY APEX, AND INVOLVE INVESTMENT RISKS, INCLUDING THE POSSIBLE LOSS OF THE PRINCIPAL AMOUNT INVESTED.

<https://www.finra.org/industry/notices/06-72>

"IMPORTANT - Part of your distribution includes a return of capital. Any distribution that represents a return of capital reduces the estimated per share value shown on your account statement."

Alternative or Other Investments, DPP, and Unlisted securities are not listed on a national securities exchange, are generally illiquid and that, even if a customer is able to sell the securities, the price received may be less than the per share estimated value provided in the account. The evaluation method used for any particular DPP or REIT will be provided to clients upon request.

Certain positions are not held on Apex's books or custodied by Apex and are not Protected by SIPC.

In accordance with the Emergency Economic Stabilization Act of 2008 broker dealers are required to track and report cost basis to the IRS in three phases over the next three years.

- Equity securities acquired on or after January 1, 2011
- Mutual fund and dividend reinvestment plan (DRIP) shares acquired on or after January 1, 2012:

Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Displays mutual funds by average cost and other securities by individual tax lot. Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

PLEASE RETAIN THIS STATEMENT AS IT WILL BE HELPFUL IN PREPARING YOUR INCOME TAX RETURNS AND MAY BE NEEDED ALONG WITH SUBSEQUENT STATEMENTS TO VERIFY INTEREST CHARGES IN YOUR ACCOUNT. <https://www.finra.org/industry/notices/06-72>

"IMPORTANT - Part of your distribution includes a return of capital. Any distribution that represents a return of capital reduces the estimated per share value shown on your account statement."

The preceding notice is required when reporting distributions on Direct Participation Programs and/or REITs and is subject to the DPP or REIT sponsor's final capital return determination as detailed in the IRS Form 1099 or K-1, as applicable.

Alternative or Other Investments, DPP, and Unlisted securities are not listed on a national securities exchange, are generally illiquid and that, even if a customer is able to sell the securities, the price received may be less than the per share estimated value provided in the account. The evaluation method used for any particular DPP or REIT will be provided to clients upon request.

Certain positions are not held on Apex's books or custodied by Apex and are not Protected by SIPC.

In accordance with the Emergency Economic Stabilization Act of 2008 broker-dealers are required to track and report cost basis to the IRS in three phases over the next three years.

- Equity securities acquired on or after January 1, 2011
- Mutual fund and dividend reinvestment plan (DRIP) shares acquired on or after January 1, 2012:
- Debit securities, options, and all other financial instruments acquired on or after January 1, 2014. (The IRS has extended this date from the previously announced date of January 1, 2013.)

These appraisals are based on the closing prices, bond yields and/or the mean bid and ask on the last day of the statement period. Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

Some securities in your portfolio may be listed as "Unpriced" on your statement. We use an automated pricing service from an outside vendor and certain prices may not be available to them. You can obtain a current quotation, upon request, from your broker or bank.

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Displays mutual funds by average cost and other securities by individual tax lot. Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

PLEASE RETAIN THIS STATEMENT AS IT WILL BE HELPFUL IN PREPARING YOUR INCOME TAX RETURNS AND MAY BE NEEDED ALONG WITH SUBSEQUENT STATEMENTS TO VERIFY INTEREST CHARGES IN YOUR ACCOUNT. THIS STATEMENT SHALL BE DEEMED CONCLUSIVE UNLESS OBJECTED TO IN WRITING WITHIN 10 BUSINESS DAYS OF THE STATEMENT CLOSING DATE.

MUTUAL FUNDS AND OTHER SECURITIES ARE NOT INSURED BY THE FDIC, ARE NOT DEPOSITS OR OBLIGATIONS OF, OR GUARANTEED BY APEX, AND INVOLVE INVESTMENT RISKS, INCLUDING THE POSSIBLE LOSS OF THE PRINCIPAL AMOUNT INVESTED.

<https://www.finra.org/industry/notices/06-72>

"IMPORTANT - Part of your distribution includes a return of capital. Any distribution that represents a return of capital reduces the estimated per share value shown on your account statement."

The preceding notice is required when reporting distributions on Direct Participation Programs and/or REITs and is subject to the DPP or REIT sponsor's final capital return determination as detailed in the IRS Form 1099 or K-1, as applicable.

Alternative or Other Investments, DPP, and Unlisted securities are not listed on a national securities exchange, are generally illiquid and that, even if a customer is able to sell the securities, the price received may be less than the per share estimated value provided in the account. The evaluation method used for any particular DPP or REIT will be provided to clients upon request.

In accordance with the Emergency Economic Stabilization Act of 2008 broker-dealers are required to track and report cost basis to the IRS in three phases over the next three years.

- Equity securities acquired on or after January 1, 2011
- Mutual fund and dividend reinvestment plan (DRIP) shares acquired on or after January 1, 2012:
- Debit securities, options, and all other financial instruments acquired on or after January 1, 2014. (The IRS has extended this date from the previously announced date of January 1, 2013.)

Lists all securities held in your account.

MARKET VALUE:

This amount represents the value of the security position in your portfolio based on appraisals obtained from the various quotation services. These appraisals are based on the closing prices, bond yields and/or the mean bid and ask on the last day of the statement period. Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

Some securities in your portfolio may be listed as "Unpriced" on your statement. We use an automated pricing service from an outside vendor and certain prices may not be available to them. You can obtain a current quotation, upon request, from your broker or bank.

Bond prices might differ from current market quotes. Similarly, bond ratings may differ from current actual ratings. Computerized pricing and rating services are often unable to supply us with up to the minute information. Your broker or bank will be pleased to obtain a current quotation upon request.

ESTIMATED ANNUAL INCOME

The current annual dividend or bond interest rate for each security held, if available from quotation services. The rate is multiplied by the number of shares or par value of bonds to determine estimated annual income.

OPEN ORDERS:

Displays all GTC (Good-Till-Cancelled) orders in your account. Also included in the section are GTX orders (GTC orders eligible for extended trading hours).

MONEY MARKET ACTIVITY:

Purchases, reinvestments and liquidations of money market funds, plus redemptions of money market fund checks.

DEFINITION OF ACCOUNT TYPES C=Cash, M=Margin, I=Income, L=Legal, S=Short, X=RVP/DVP, and O=Other

REALIZED GAIN/LOSS DETAIL AND PORTFOLIO SUMMARY SECTIONS:

Displays mutual funds by average cost and other securities by individual tax lot. Realized gains (losses) are reflected on a trade date basis for transactions settling during the current period or the period in which the shares were received, if later. Realized gains and losses may include transactions that settle during the following statement cycle. These transactions appear in the Portfolio Holdings section. Estimated unrealized gains (losses) are displayed for most securities currently held. The cost basis used in determining gains (losses) does not reflect wash sales and may not reflect all capital adjustments. Most exchanges reflected on this statement are treated as non-taxable, unless or until other information has been communicated to us. Cost basis of preferred securities with original issue discount ("OID") is not adjusted for the accretion of OID. For most long positions transferred between beneficial owners, the transferor's cost basis will be retained. For shares acquired from a decedent, you should consult your tax advisor to determine the appropriate valuations and holding period that applies. ALTHOUGH THE COST BASIS SHOWN MAY HAVE BEEN ADJUSTED, YOUR COST BASIS MAY REQUIRE ADDITIONAL ADJUSTMENTS. NOTE: WE DO NOT REPRESENT THE CALCULATIONS OF REALIZED AND UNREALIZED GAINS (LOSSES) AS AN OFFICIAL TAX ACCOUNTING OF SUCH FIGURES. FOR TAX PURPOSES, YOU SHOULD RELY ON YOUR OWN RECORDS AND THE CONSOLIDATED FORM 1099 SENT TO YOU.

Order Routing:

The SEC requires all broker-dealers that route orders in equity securities and options to make available quarterly reports that present a general overview of their routing practices. The reports must identify the significant venues to which customer orders were routed for execution during the applicable quarter and disclose the material aspects of the broker-dealer's relationship with such venues. In addition, the Rule (SEC 606) requires broker-dealers to disclose, on customer request, the venues to which the individual customer's orders were routed for the six months prior to the request, and the execution time for the orders that were executed. For further information, please contact your broker or financial advisor.

PLEASE RETAIN THIS STATEMENT AS IT WILL BE HELPFUL IN PREPARING YOUR INCOME TAX RETURNS AND MAY BE NEEDED ALONG WITH SUBSEQUENT STATEMENTS TO VERIFY INTEREST CHARGES IN YOUR ACCOUNT. THIS STATEMENT SHALL BE DEEMED CONCLUSIVE UNLESS OBJECTED TO IN WRITING WITHIN 10 BUSINESS DAYS OF THE STATEMENT CLOSING DATE.

MUTUAL FUNDS AND OTHER SECURITIES ARE NOT INSURED BY THE FDIC, ARE NOT DEPOSITS OR OBLIGATIONS OF, OR GUARANTEED BY APEX, AND INVOLVE INVESTMENT RISKS, INCLUDING THE POSSIBLE LOSS OF THE PRINCIPAL AMOUNT INVESTED.

Alternative or Other Investments, DPP, and Unlisted securities are not listed on a national securities exchange, are generally illiquid and that, even if a customer is able to sell the securities, the price received may be less than the per share estimated value provided in the account. The evaluation method used for any particular DPP or REIT will be provided to clients upon request.
